

About Us

Jadestone Energy is an independent oil and gas company focused on the Asia Pacific region. It has a balanced, low risk, full cycle portfolio of development, production and exploration assets in Australia, Vietnam and the Philippines. Led by an experienced management team with a track record of delivery, who were core to the successful growth of Talisman's Asia Pacific business, the Company is pursuing an acquisition strategy focused on growth and creating value through identifying, acquiring, developing and operating assets in select upstream oil & gas basins in the Asia Pacific region.

Jadestone Energy is headquartered in Singapore, has its principal technical team in Kuala Lumpur and country operational offices in Perth, Jakarta, and Ho Chi Minh City.

Jadestone Energy is listed on the TSX Venture Exchange (TSXV: "JSE") and on AIM (AIM: "JSE").

Operations

- Jadestone is the 100% owner of the producing Montara oil project, offshore Australia, and is expecting to be formally granted operatorship of the asset upon approval from NOPSEMA. Jadestone has a 100% operated working interest in Stag, offshore Australia, an oil producing field with development and exploration potential.
- The Company has a 100% operated working interest (subject to registration of PVEP's withdrawal) in two gas development blocks in Southwest Vietnam containing three discovered gas fields, and is partnered with Total in the Philippines, where it holds a 25% working interest in the SC56 exploration block.
- Jadestone plans to build its asset portfolio through the acquisition of producing assets and/or discovered resources, where there are significant opportunities for operating efficiencies, cost reduction and increased production through further investment.

Who are we looking for?

- Individuals who are passionate, enthusiastic and provide critical expertise to drive Jadestone Energy's growth, strategy and value generation. As a company with three core operating areas in the Asia Pacific region, it is important that all our employees are culturally sensitive and respectful of others.
- Jadestone Energy is also committed to reducing our environmental footprint whilst bringing the social and economic benefits of our industry to the countries in which we operate. Employees are expected to value this commitment whilst always delivering safe and efficient operations across assets, cultures and geographies.

What we offer:

- An exciting and highly nimble work environment where employees will collaborate with a diverse international team who will encourage them to learn, grow, challenge themselves and show their entrepreneurial spirit.
- At Jadestone Energy, you will join a company with a leadership team that has a proven industry track record of success. Jadestone Energy is a new and exciting company, with a pioneering spirit where individuals can truly make a difference and flourish.

JOB DESCRIPTION

Job Title:	Geologist	Reports to (title):	Subsurface Manager
Department:	Subsurface	Location:	Kuala Lumpur, Malaysia

1. POSITION PURPOSE

Perform a variety of technical petroleum geology function, including specialty studies, the majority of the time with no supervision.

2. WORKING RELATIONSHIPS

Positions supervised	Direct:	None
	Indirect:	None
Working relationships	Internal:	Subsurface team, Operations, Country Managers, Business Development, Commercial
	External:	Reserves auditor, government regulators, consultancies, service providers

4. PRINCIPAL ACCOUNTABILITIES

- Effectively work as part of a team composed of geoscientists, reservoir engineers, drilling engineers and production operations engineers.
- QC geological database which include wellbore database (i.e. (LWD & wireline logs, cores, pressure data).
- Incorporate sedimentological interpretations, petrophysical data and seismic attribute analysis into reservoir models.
- Build and maintain 3D geo-cellular models incorporating static, production and pressure data to ensure these models reflect the most current understanding of reservoir descriptions and dynamic behaviour of the reservoir.
- Evaluate geological risks and conduct volumetric assessments.
- Generate detailed documentation to support drilling operations and oversee geological operations while drilling and logging wells.
- Experience in both redevelopment of brownfield and near field exploration/appraisal activities.
- Undertake accurate deterministic and probabilistic volumetric evaluations for reserves assessment.
- Prepare Field Development Plan (FDP) documentation for approval by host government and co-ventures.

5. POSITION HOLDER REQUIREMENTS

Formal Qualifications	<ul style="list-style-type: none"> • Minimum of a B.Sc. degree in Geology or other related discipline
------------------------------	--

<p>Experience, Skills and Knowledge</p>	<ul style="list-style-type: none"> • Experience in the construction and maintenance of 3D geo-cellular models; with hands-on experience in Petrel. • Ability to integrate sedimentological and petrophysical data and seismic attributes into geological models. • Experience in the use of geo-statistics for uncertainties quantification and the preparation of volumetric reports used for reserve estimation. • Proficient in using PETREL and experience in similar/related geological software would be an advantage. • Relevant E&P experience in oil & gas industry, preferably with an operator drilling offshore development wells. • Experience of working with other subsurface disciplines (i.e. petrophysics, geophysics, reservoir engineering and drilling) to deliver projects on tight deadlines/project schedule.
<p>Candidate Profile</p>	<ul style="list-style-type: none"> • Must possess excellent communication and organizational skills and be able to work effectively within a multi-disciplinary and multi-national technical team. • Must possess the ability to independently derive subsurface interpretations and be able to defend those interpretations. • Essential to be able to multi task and work on numerous projects simultaneously • Preference will be given to Malaysian nationals.
