

About Us

Jadestone owns 100%, operated interests in the producing Montara project and the Stag oilfield, offshore Western Australia. In addition, the company holds exploration and pre-development assets in Vietnam and other parts of Southeast Asia, and has executed agreements to acquire an operated 69% interest in the Maari project, offshore New Zealand and an operated 90% interest in the Lemang PSC, onshore Sumatra, Indonesia.

The company plans to build its asset portfolio through the acquisition of producing assets where there are significant opportunities for operating efficiencies, costs reduction and increased production through further investment.

The company is also identifying appraised, non-producing assets, with proven resources that can be developed and quickly brought to production cost-effectively with strong growth potential.

Jadestone Energy is headquartered in Singapore, has its principal technical team in Kuala Lumpur and country operational offices in Perth, Jakarta, Ho Chi Minh City, and New Plymouth.

Jadestone Energy is listed on the AIM market of the London Stock Exchange (AIM: "JSE").

Who are we looking for?

- Individuals who are passionate, enthusiastic and provide critical expertise to drive Jadestone Energy's growth, strategy and value generation. As a company with three core operating areas in the Asia Pacific region, it is important that all our employees are culturally sensitive and respectful of others.
- Jadestone Energy is also committed to reducing our environmental footprint whilst bringing the social and economic benefits of our industry to the countries in which we operate. Employees are expected to value this commitment whilst always delivering safe and efficient operations across assets, cultures and geographies.

What we offer:

- An exciting and highly nimble work environment where employees will collaborate with a diverse international team who will encourage them to learn, grow, challenge themselves and show their entrepreneurial spirit.
- At Jadestone Energy, you will join a company with a leadership team that has a proven industry track record of success. Jadestone Energy is a new and exciting company, with a pioneering spirit where individuals can truly make a difference and flourish.

JOB DESCRIPTION

Job Title:	Group Financial Accountant	Reports to (title):	Group Finance Manager
Department:	Finance	Location:	Kuala Lumpur, Malaysia

1. POSITION PURPOSE

The role of the Group Financial Accountant is to ensure all corporate finance activities are conducted in an efficient, productive, rigorous manner; in line with company values; and in full compliance with the company's accounting policies and procedures and in accordance with international financial reporting standards (IFRS) plus any other associated rules or regulations.

The Group Financial Accountant is a part of the corporate finance team, and their primary responsibility will be the preparation of the annual and half-year group consolidation process including the associated audit work and analysis. The position will manage the financial accounting, tax returns and statutory accounts for the corporate companies. Plus, provide support wherever necessary to other members of the corporate finance team.

The position requires a detailed working knowledge of IFRS 3, Business Combinations and an awareness of financial modelling in excel to maintain and improve the group consolidation process. The position will suit a qualified accountant seeking a challenging corporate finance position that will develop their technical accounting skills.

2. WORKING RELATIONSHIPS

Positions supervised	Direct:	None
	Indirect:	None
Working relationships	Internal:	Regional finance teams, CFO, Country Managers, investor relations
	External:	Auditors, Accounting Firms, Audit Committee

3. BASIC FUNCTION

The role requires experience in the preparation and review of statutory financial statements, a detailed working knowledge of international financial reporting standards (especially IFRS3 business combinations) and a desire to proactively expand and deepen that awareness to enhance the individual's practical understanding and application of IFRS in the oil and gas sector

A principle deliverable will be maintaining of the group consolidation process and combining the group operations to generate a set of consolidated financial statements.

The position will be involved in the annual audit process working directly with external audit managing their requirements in a timely and proactive manner.

The Group Financial Accountant will manage a portfolio of corporate entities managing the financial accounting, month end close and associated tax returns.

As part of a global organisation, supporting a business with operating assets across Southeast Asia and Australia, working hours requires a degree of flexibility, as the position has strict reporting deadlines. Additionally, as the role will include access to share price sensitive non-public financial information, it also requires strict confidentiality.

4. PRINCIPAL ACCOUNTABILITIES

- Manage the group consolidation process which involves maintaining and improving the excel financial model and preparing the annual and half-year consolidated financial statements.
- Coordinate, and be a key focal point with the external auditors, for annual year-end audits for the Group and its subsidiaries
- Prepare group schedules to support the consolidated financial results and analysis provided to senior management, board and external audit.
- Perform the financial accounting and month-end closing processes and reporting activities for corporate entities.
- Analysis and report the financial results and performance to senior management
- Provide technical accounting advice on key reporting issues
- Involvement in both technical and operational finance projects including review, design and process improvements for the Group consolidation and reporting systems and processes
- Provide support to the finance group on the month, quarterly and annual consolidation processes
- Review transactions and business structures to determine the correct accounting treatment under IFRS
- Assist the finance function with the development and evolution of group wide controls, systems and processes, including Group consolidation processes and the further adoption of SUN Group-wide
- Proactively and continuously find opportunities to make the finance functions and processes more efficient and effective.
- Support finance and non-finance functions with additional ad-hoc requests

5. POSITION HOLDER REQUIREMENTS
